

PHYS/4036 Workshop 7

Adam Moss and Maggie Lieu

January 2020

Question 1:

Follow the TF2 cycleGan tutorial (<https://www.tensorflow.org/tutorials/generative/cyclegan>), using two datasets of your choice from the TF dataset library (<https://www.tensorflow.org/datasets/catalog/overview>). You should think about what datasets have similar characteristics in each domain (e.g. MNIST digits to street digits, which the is `svnh_cropped` dataset).
